

Revolutionize the World

It's just me, and mine
We keep rolling from day to day
It's alright, just fine
Another day to roll right along

As we simply roll along
What are we doing about your song?

Chorus

*If we would love each other like you've loved us
What a mighty change we would bring?
If we would love you just the way you've loved us
We would revolutionize the world*

It's just dawn, just light
We keep rolling from dawn to dawn
It's alright, just fine
Another day to roll right along

As we simply roll along
What are we doing about your song?

Chorus

*If we would love each other like you've loved us
What a mighty change we would bring?
If we would love you just the way you've loved us
We would revolutionize the world*

Bridge

*Will we recognize it's our choice from day to day?
Will we step up to our call?
And will we find this a better place to be
When we step up to our call, if we step up to our call?*

Chorus

*Will we love each other like you've loved us?
Bring a mighty change, bring a mighty change?
Will we love you just the way you've loved us
And revolutionize the world?*

Chorus to End
