

## **Believe**

In everyone's lifetime there comes a place  
Where we're faced with feelings of being dismayed  
I know there's a place for love  
So I choose to believe

In everyone's journey there comes a day  
Where we're faced with feelings of being displaced  
I know there's a day for love  
And so I choose to believe

### **Chorus**

*I choose to believe in love  
I know my heart is true  
I know I will survive  
I find there's a place for love  
When I choose to believe*

*I choose to believe in love  
I know my heart is strong  
I know I will thrive  
I find there's a place for love  
When I choose to believe  
I choose to believe*

To everyone somewhere there comes a time  
A time of reflection and a time to cry  
I know there's a time for love  
So I choose to believe

To everyone everywhere there comes a moment  
A moment of choice: to give up or to try  
I have found many moments of love  
And so I choose to believe

### **Chorus**

#### **Bridge**

If you will choose to believe in love  
You'll know your heart is true  
And you will survive  
You'll find there's a place for love  
If you will choose to believe

If you will choose to believe in love  
You'll know your heart is strong  
You know you will thrive  
You'll find there's a place for love  
If you will choose to believe
