

## **Love Can Change Your World**

All your days and nights of loss and gain  
You can try to change each and every pain  
It's time to make your new reality  
It's in your very heart . . .

### **Chorus**

*I bet you know that love can change your world  
I bet you know that love can heal your wounds  
I bet you know that love can kill despair  
I bet you know that love will be your friend  
Love is absolute  
Love will not delude  
Love will shine in rain  
Love forever stays the same . . .*

All your nights and days of giving up  
You can choose to live your highest hopes  
It's time to make your new reality  
It's in your very heart . . .

### **Chorus**

Whenever I do think about you  
You always seem to be  
A tear too sad  
A frown too cold  
Whenever I do think about you  
You always seem to me  
A smile so far away  
From joy . . .

### **Chorus**

A little faith is what it takes  
To try a little tenderness  
Try a little hope my baby  
That's the way it ought to be . . .  
Take a chance with love  
Try a little thoughtfulness  
Push away the faithlessness  
For love can change your world around . . .
